- Implement oracle database and forms reports servers for Arab African International Mortgage Co.

Oct 2014 - June 2022

Egyptian Presidency

Senior Oracle Database / GoldenGate Administrator

- Work on live systems managing large databases to provide 24/7 support of production database to ensure the highest standards of availability, integrity and performance required.
- Strong knowledge of database development using SQL and PL/SQL
- Work with the Development team to fix the problems in Applications
- Perform the capacity planning required to create and maintain the databases
- Control and monitor user access and auditing to databases
- Move data using (EXP/IMP, DATAPUMP, SQL*Loader) utilities.
- Plan, schedule and take Oracle backups, Recovery strategies.
- Use Oracle Flashback Technologies.
- Install Oracle Grid Infrastructure and Oracle Database Software.
- Create cluster databases and implement Oracle extended RAC on Windows and Linux environments.
- Manage ASM instances and initialization parameters.
- Add and drop ASM Disks and set attributes of ASM disk groups.
- Monitor and tune the performance (OS parameters, SQL tuning and Database parameter tuning) using (AWR, ASH, ADDM) and tuning advisors.
- Create and manage Oracle RAC physical standby databases for disaster purpose using Data Guard.
- Install and configure Oracle GoldenGate.
- Monitor and troubleshoot Oracle GoldenGate.
- Install, configure, and administer Oracle Veridata.
- Install and Administer Oracle Enterprise Manager Cloud Control.
- Monitor and discover Oracle components using OEM 12c
- Install and configure Oracle BI Servers
- Install and configure Oracle GoldenGate.

Jul 2012 – Sep 2014

Egyptian Presidency

IT Engineer

- Install and configure network devices (routers, switches)
- Install, configure and administer windows 2012 services (active directory, DHCP, DNS, Hyper-V)
- Install Oracle Linux and managing (users, groups, N/w issues)
- Install, maintain, configure and troubleshoot VMware hyper converged datacenter (ESXi, vCenter, vMotion and DRS).
- Install and Administer SQL Server 2008,2012
- Install IIS and configure basic security settings.
- Configuring Brocade Load Balancer
- Configure RAID Storage
- Deal with different types of Storage(EMC and Fujitsu)

Mar 2008 – Jun 2012

MCIT, Egypt

Senior ASP.Net Developer

CERTIFICATIONS

- Oracle Certified Associate (1Z0-082)
- Oracle Certified Professional (1Z0-083)
- Oracle Cloud Database Migration and Integration Professional (1Z0-1094-23)
- Oracle Autonomous Database Cloud Certified Specialist (1Z0-931)
- Oracle Cloud Infrastructure Foundation Associate (1Z0-1085-20)
- Oracle Cloud Infrastructure Architect Associate (1Z0-1072)
- Oracle Cloud Infrastructure 2023 AI Foundations Associate (1Z0-1122-23)

Training

- | | |
|-------------------------------------|---|
| ▪ Oracle12c Administration Workshop | ▪ Oracle GoldenGate Fundamentals |
| ▪ Oracle12c backup and Recovery | ▪ Oracle GoldenGate Troubleshoot & Tuning |
| ▪ Oracle12c Clusterware | ▪ Oracle Enterprise Manager Cloud control |
| ▪ Oracle12c RAC administration | ▪ Fujitsu ETERNUS DX |
| ▪ Oracle12c ASM administration | ▪ Fujitsu PRIMEFLEX for VMWARE |
| ▪ Oracle Performance&Tuning | ▪ CCNA |
| ▪ Oracle SQL Tuning | ▪ CCNP Routing |
| ▪ Oracle DataGuard | ▪ CCNP Switching |
| ▪ Oracle BI Publisher | ▪ CCNP Troubleshooting |
| ▪ Oracle BI Administration | ▪ CISCO ISE |
| ▪ Oracle BI 12c Build Repository | ▪ SharePoint For Developers |
